Hanoi, October 30, 2026

*(Explanation of Consolidated Financial
Statements for the third quarter of 2026 and
Cumulative figures up to September 30, 2026)*

Dear: - State Securities Commission
- Hanoi Stock Exchange

In accordance with Article 14 - Chapter III - Circular 96/2020/TT-BTC issued on November 16, 2020 by the Ministry of Finance on guiding the disclosure of information on the Securities Market, Vietnam Electronics and Informatics Corporation (Viettronics), ticker symbol VEC, traded on the UPCOM exchange, has prepared its consolidated financial statements for the second quarter of 2026 and submitted them to the relevant authorities. Viettronics now explains the fluctuations in the indicators as required by law as follows:

1. Regarding profit fluctuation figures:

According to the consolidated financial report for Q3/2026, the net profit after tax (NPAT) figure is projected to increase by more than 10% compared to the same period in 2025:

- For Q3/2026: Net profit after tax increased by VND 1,313 billion compared to Q3/2025, corresponding to an increase of over 10%.
- For the cumulative figures up to September 30, 2026: Net profit after tax increased by VND 16,823 billion compared to the cumulative figures up to September 30, 2025, representing an increase of over 10%.

2. Causes of fluctuations:

The aforementioned profit discrepancy mainly stems from the Corporation's recognition of profits from the production and business activities of its subsidiary companies.

Vietnam Electronics and Informatics Corporation (VNIET) provides further clarification on the fluctuations in some key indicators in the consolidated financial statements for Q3/2026 and cumulative figures up to September 30, 2026, compared to Q3/2025 and cumulative figures up to September 30, 2025, to provide additional information for relevant agencies, shareholders, and investors. *for*

Best regards.

Recipient:

- As above.
- Save VT, TCKT.
